# The Historic Villa and the view on the gulf of Portoferraio

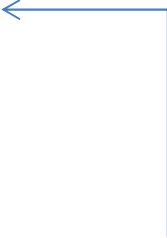

Splendid home of the Counts Toscanelli until 1920 on the Island of Elba. Hotel Villa Ottone has the elegance of an old Historic Villa and the charm unique to Tuscany.

Surrounded by long-established grounds and with its own private beach, the Hotel is an oasis of peace, provided by the harmony of its landscape and the poetry of its exquisite interiors and fine exteriors.

# Our private beach...

The borderline between the sea and the large natural park in which Hotel Villa Ottone stands, the beach is a mixture of golden sand and shingle.

Fully at guests' disposal, the beach is well kept and equipped with every convenience: umbrellas, loungers, huts and showers. The beach also still has its original jetty for mooring craft.

# The Taverna bar right next to the sea

The panoramic seaside terrace and the tavern, are directly adjacent to the private beach.

The terrace creates a fun-loving, carefree atmosphere and a sense of freedom.

An open space offering a mood of total relaxation at any time of day.

# The Villa Bar

The splendours of past times are echoed in the Bar of the Nineteenth Century Villa.

The delicate beige, toffee and bright blue shades of the frescoed ceiling are enhanced by gold-coloured embroidery, period stucco work and family crests.

The colours of the bar and the adjoining lounge are repeated to magnificent effect in the neo classical colonnade, creating an effect of continuity between indoors and out.

And when nature makes its contribution in the form of the sunset, the Villa and the surrounding gardens merge into a whole of much greater significance.

An aperitif becomes a magical ritual, with the sun painting the sky and sea a glowing apricot shade, and cancelling the distances between inside and outside.

# Rooms and Suites in the Villa

Period frescoes and stucco in the ceilings, antique furniture, beeswax-polished hand-crafted wrought iron beds, and cool, filmy fabrics in the curtains and linen.

There is a chocolate-box air to the Rooms and Suites of the historic Nineteenth Century Villa: pastel colours – pink, pale blue, wisteria and moss green – alternate with neutral shades in the sophisticated design schemes of sitting-rooms, bedrooms and bathrooms.

# Rooms and suites in the hotel

Intended for those in search of a more casual, less formal environment which still ensures comfort and sophistication, the Hotel is an attractive piece of Seventies architecture in the quiet, verdant setting of Villa Ottone's fine park.

The two Superior Suites offer a magnificent, sweeping view of the Historic Villa and the sea.

Modern in design, the Rooms and Suites are furnished with care and style. Dark blue, beige, mustard yellow, turquoise and white, tastefully mixed on the upholstery and the coverings of sofas and seats, create sunny, attractive decorative effects.

The large furnished balconies of the Suites and Rooms on the first and second floors, and the terraces of the nine Superior Rooms on the third floor, all overlook the park.

# The cottages in the hearth of garden

Cocooned in the sunny Mediterranean light filtered by rich vegetation, the Cottages stand in the heart of the garden.

They are independent rooms, each with private terrace.

They offer the advantage of accommodation that ensures intimacy and privacy in the silence of nature.

# Restaurant in the Park

The delicacy of ivory sets the tone in the Hotel Restaurant and gives a sophisticated touch to a fully air-conditioned dining environment. The buffet breakfast takes place in the Mediterranean atmospheres created by the light filtered through the foliage of majestic eucalyptus and ancient palm trees.

The day starts with a cool, summery menu of seasonal fruit and sweet and savoury delicacies.

The dinner at the restaurant of the park becomes a unique, unforgettable occasion, accompanied by the beauty of the starry sky, the flickering candlelight and the fragrance of the surrounding vegetation.

The scene is completed by the fairytale beauty of the Villa, rendered even more majestic by soft, gentle lighting..

# The swimming-pool restaurant

Tasty mixed grills of fish and sophisticated lobster dishes can be savoured at the poolside Restaurant. In the sunny setting of the flower-laden pergola, from this corner of the Hotel there is an unrestricted view of the sea.

Like a huge carpet of blue, the bright waters stretch to the roads of Portoferraio, dominated by the imposing Medici fortresses and the octagonal profile of the Linguella Tower.

The Grill Restaurant specialises in dishes from the Elban culinary tradition, made from freshly-caught fish and with the unmistakable fragrances of herbs gathered from the maquis.
